CLINICAL PATHOLOGY - 2008**

HEMATOLOGY

Digital Image Examination

1. Place your candidate number on this and each of the following pages.
2. This examination consists of 25 digital images with questions to be answered while viewing the projected images.
 - Approximately 1.5-2.0 minutes will be provided per item to view the images and write the answer(s). The images will not be projected a second time.
 - Write your answers in the spaces provided to each question listed on the following pages. Be as specific as possible when writing your answers.
3. All slides are stained with Wright's or Wright-Giemsa unless otherwise indicated.
4. The types of questions most frequently asked involve one of the following:
 - a. Identification of an indicated structure.
 - b. Provide a diagnosis or interpretation based on the abnormality(ies) present on the slide.
5. Do not write in the right margin or at the bottom of the page.
6. The point breakdown for the Hematology Section is: Multiple Choice 40%, Microscopic 40%, and Projected Images 20%.
